PROFESSIONAL SPEAKER

MOTIVATIONAL

INSPIRATIONAL

HUMOROUS

CHAD HYMAS COMMUNICATIONS, Inc.

Who Needs Legs When You Have **WINGS?**

Why Chad for your next convention?

Because you have never seen anything like him! We guarantee it! Here is what others have said...

"Chad's life is a true example of heroism. A quadriplegic with wings! His message creatively weaved into our business objectives left our audience in absolute awe! The research he did for his 'plug ins' still have our people talking"

-Blue Cross Blue Shield

"Your message and story is absolutely amazing!" What an inspiration!! Let this signed jersey represent to you some of the characteristics of the man who wears it; hard work, determination, and accomplishing the seemingly unachievable."

-Utah Jazz

"Your message of choice, hope, and achievement has already started to pay dividends. The outcome of our convention was exactly what we had hoped for. And thanks to you, the initial results are most encouraging! You were right on the money!"

- Broken Arrow

At the age of 27 Chad Hymas broke his neck in a freak accident which left him a quadriplegic. Doctors said that he would never walk, and that without the complete use of his arms he would need an electric wheelchair. Wondering where all of his dreams went, Chad decided that he had the power to control his own future. "Dreams are only paralyzed when our attitude and belief allows them to be"! Since that fateful day, Chad has become President of his own communications company. Chad is a wheelchair athlete, no longer in an electric wheelchair! He plays basketball, wheelchair rugby, and he races marathons. Chad is currently training to set a new world record and race a personal marathon of over 400 miles in the summer of 2003. Chad is a member of the National Speakers Association and has enjoyed traveling to businesses and corporations all over the United States sharing principles and values that have helped him to achieve the unachievable! His message inspires, motivates, and moves people to action! You will find yourself laughing one minute, and holding back a tear the next as Chad shares..."Our lives are not determined by what happens to us, but how we react to what happens"!

SPEAKING TOPICS AND TITLES

All of Chad's presentations are personalized and unique as he carefully researches the needs and challenges of the target audience. No one program is the same! Using his matchless sense of humor and touching stories, Chad will tap into the very hearts of your audience creating in them the belief that they can achieve the unachievable, reach the unreachable, and fly higher than they ever thought possible! You WILL remember this experience!!

***Who Needs Legs When You Have Wings™**

All of us, at times, feel paralyzed in our lives. Whether it be physical, emotional, economic, spiritual, or otherwise, paralysis makes us feel trapped, unable to believe or create for ourselves a future. Chad illustrates through principles of accepting,

Chad Hymas

adapting, and acting on change we can Fly Higher than we ever thought possible. Paralysis, in all forms, creates opportunity and allows us to find that hidden inner strength to achieve the unachievable and live bigger dreams!

***Fail Your Way To Success™**

With his inspirational and humorous approach, Chad touches the audience by sharing the failures and successes he has experienced while attempting to relearn how to use his body! Through his personal experiences, he teaches listeners that regardless of our current circumstances, we have the power to change our own future. By accepting responsibility, taking risks, and being willing to fail we can go through pain with the enthusiasm necessary to reach our ultimate goals!

***Therapy For a Disabled Attitude™**

Audiences are amazed as Chad shares the power of having a positive attitude! Despite going through incredible change in his life, Chad illustrates that the experience of a broken neck has helped him understand that a disabled attitude is more destructive than a disabled body! As we begin to change our way of thinking, we realize that a positive attitude causes a chain reaction of positive thoughts, events, and outcomes. It will affect the results we achieve in our lives!

PRINCIPLES THAT PATTERN LIVES

"A positive attitude is everything. For myself, it has been a catalyst... a spark that has created extraordinary results."

"While I may be paralyzed physically, my dreams are not! Dreams become paralyzed only by personal belief... NOT by any tangible thing. They are unique! Dreams are created and attained by what we possess inside!"

"Change creates opportunity...Opportunity for experience, growth, and ultimately achievement. Those individuals who adapt and approach change with enthusiasm will find the measure of their inner ability."

"Flying requires resistance, balance, and the willingness to take off. No bird soars too high if he soars with his own wings. Learn to fly!"
